WRI 2006 - Breaking the Constraints to Progress

Submitted on Sep 29, 2014

Image

Each year, a summary report is generated to document the Annual WRI Meeting in order to best provide direction for WRI's ongoing work to advance the research for HIV+ women. Building on the growing momentum of recent WRI accomplishments, the 2006 meeting focused on two key concepts: first, identifying the most critical constraints to accelerating progress in research and second, focusing our efforts only on those specific constraints within our direct sphere of influence. This approach helped the WRI to zero in on a few key initiatives for the coming year. These initiatives can be broadly described as addressing two basic questions:

What things do we not know that, if known, could significantly impact the course of the epidemic?

What things do we know which, if broadly disseminated, could significantly impact the course of the epidemic?

To accomplish this, the WRI identified initiatives in three areas:

- · Research "policies, practices, and priorities"
- Clinical Trial Network Accountability
- · Community engagement and leadership development

Attending the meeting were members of the WRI (including representatives from clinical care, HIV research, academia, community-based organizations, government, the pharmaceutical industry and HIV-positive women), guest speakers and invited experts. A list of the 2006 WRI Meeting members, speakers and participants can be found below.

2006 WRI Summary Report

?2006 WRI Meeting Participants

Richard Averitt

The Well Project Julie Barroso

Duke University School of Nursing Dawn Averitt Bridge

The Well Project Gina Brown, MD

Maternal-Fetal Specialist

New York City Department of Health and Mental Hygiene Rebecca Clark, MD

LSU HSC Susan Ellen Cohn, MD, MPH

Associate Professor of Medicine

University of Rochester Elizabeth Connick, MD

Associate Professor of Medicine

University of Colorado at Denver and Health Sciences Center Robert W. Coombs, MD, PhD, FRCPC

Professor, Laboratory Medicine & Medicine

University of Washington Terri Creagh, PhD

Director of Research

Clinical and Epidemiologic Research Kristy Grimm

Associate Director, Virology Medical Strategy

Bristol-Myers Squibb Jane Hitti, MD

Associate Director

University of Washington Medical Center, Dept. Ob/Gyn Sally L. Hodder, MD

University of Medicine & Dentistry of New Jersey Katherine Hollinger, DVM, MPH

FDA/Office of Women's Health Rowena Johnston, PhD

Director, Research

AmfAR - The Foundation for AIDS Research Ben Kozub

Boehringer Ingelheim Sharon Lee

Director

Family Health Care Meagan Lyon, MPH

Senior Research Assistant

Forum for Collaborative HIV Research Cathy Olufs

Education Director

The Center for Health Justice (formerly CorrectHELP) Andrew Pavia, MD

Professor and Chief, Division of Pediatric

Infectious Disease

University of Utah Martell Randolph

Community Educator

AIDS Research Alliance Claire Rappaport

Community Liaison

International Network for Strategic Initiative in Global HIV Trials (INSIGHT) **Patricia Reichelderfer** NIH/NICHD **Wendy Rhein**

Executive Director

The Well Project Alex Rinehart

Associate Medical Director

Tibotec Therapeutics Yolanda Rodriguez-Escobar

Executive Director

Mujeres Unides Corba el SIDA Ellie Schoenbaum, MD

Director of AIDS Research Program

Montefiore Medical Center Stephen P. Storfer, MD

Senior Associate Director, Virology

Boehringer Ingelheim Pharmaceuticals, Inc. Kimberly Struble, PharmD

Medical Team Leader

Food and Drug Administration, Division of Antiviral Products Melanie Thompson, MD

Principal Investigator

AIDS Research Consortium of Atlanta Fulvia Veronese, PhD

Chair, HIV/AIDS Etiology and Pathogenesis

Coordinating Committee

NIH, Office of AIDS Research Ron Wilder

President

Aligned Action, Inc.
